# SmartManager 2.0

## Platformsopdelt funktionalitetsoversigt

• = Supported    — = Not applicable for the platform	Symbian^3 & S60	Windows Mobile	BlackBerry	iOS	Android
<b><u>Inventory</u></b>					
IMEI	•	•	•	•	•
IMSI	•	•	•	• <sup>(ICCID)</sup>	•
Roaming status	•	•	•	•	•
Battery status	•	•	•	•	•
Firmware	•	•	•	•	•
Hardware	•	•	•	•	•
Manufacturer	•	•	•	•	•
Language	•	•		•	
Free space of device memory	•	•	•	•	•
Free space of removable media	•	•	•	—	•
Access points settings	•	•	•	•	
Installed software name/ID/version	•	•	•	•	
Network information	•	•	•	•	
GPS	•	•	•	•	
Call logs	•	•			•
Data traffic usage (GPRS/3G and WLAN)	•	•	—		
<b><u>File system management</u></b>					
Create folder	•	•	•	—	•
Copy file to device	•	•	•	—	•
Copy files/folders from device	•	•	•	—	•
Delete files	•	•	•	—	•
Delete folders	•	•	•	—	•
Launch file	•	•		—	
Move files from device	•	•	•	—	•
Restore files to device	•	•	•	—	•
<b><u>Configuration management</u></b>					
Registry operations	—	•	—	—	—
Country information	•	•		•	•
AT commands	•			—	
Network mode	•	—			
Browser bookmarks	•	•			
SyncML data synchronization settings	•				
Home screen applications (OMA DM)	•		—	—	
Key shortcuts (OMA DM)	•		—	—	
OMA device management settings	•	•	—	—	
VoIP settings	•		—	—	
SIP settings	•		—	—	

	Symbian^3 & S60	Windows Mobile	BlackBerry	iOS	Android
<b>Internet Access Points</b>					
CSD settings	•		—		
GPRS settings	•	•	—	•	
WLAN settings	•	•	—	•	
WLAN settings/advanced WLAN settings	•	•	—	•	
Default access points	•	•	—		
<b>Email</b>					
Email settings for POP/IMAP	•	•		•	
Email data roaming setting	•	•		•	
ActiveSync settings	—	•		•	
Lotus Notes Traveler settings	•		—		
Corporate Exchange account settings	•	•	—	•	
Seven Email settings	•		—	—	
<b>Security</b>					
Device reboot	•	•			
Device wipe/detonate	•	•		Wipe only	Wipe only
USB blocking	•			—	
Enable/disable device autolock	•	•		•	
Enable/disable keypad autolock	•				
Certificate management	•	•		•	
Encryption settings	•	•		•	
Enable/disable Bluetooth	•	•			
Enable/disable hidden Bluetooth	•	•			
Enable/disable camera	•	•		•	
Enable/disable device encryption	•	•		•	
Enable/disable installation of user's own applications	•	•		•	
Lock/unlock user-changeable settings	•	•			
Security policy settings for SIM card change	•	•			
Alerts for policy breaches	•	•			

På følgende side gælder nedenstående bemærkninger:

(• 1) only Enterprise applications In-house Distribution  
*(iPhone apps provisioned using the enterprise distribution method are not submitted to the App Store. In-house apps can be hosted on a website, file sharing system, or simply emailed directly to users. Installation for the user is as simple as syncing*

<http://www.apple.com/iphone/business/apps/in-house/resources.html>

(• 2) only report/monitoring

	Symbian^3 & S60	Windows Mobile	BlackBerry	iOS	Android
<b>Platform-specific functionalities</b>	Nokia ADM policies			Restrictions (iTunes, YouTube, explicit content, network games, application purchase and install...) Clear passcode Jailbreak-status	
<b>Backup and restore</b>
